# AURA 5

Aura speaker series has more than audio attributes, it literally lights up. Its name comes from the possibility to add dimmable light into its round shape, turning the speaker into a sconce if installed on wall or a light fixture if installation is on ceiling. It can also be installed outdoor. The speaker has an extruded aluminum cabinet and is available in several finishes.

## SPECIFICATIONS

### Placement Options

On Ceiling | On Wall  
Indoor | Outdoor

### Use

Distributed Audio | Multichannel

### Enclosure

Aluminum, Ported IP55

### Recommended Amplifier

80W

### Drivers
