### Finishes

Triad's Basic & Custom Finishes are available for this product. The standard finish for this product is White paint.

For any other colors, please refer to Triad's Custom Match Finish program for this product.

## INWALL GOLD/6 MONITOR

The inwall version of Triad's InRoom Gold Monitor is the benchmark of custom speakers, and among the best-sounding inwall speakers ever made. The InWall Gold/6 Monitor may be used full-range in music systems, or it can be mated with Triad Subs and Surrounds for an invisible home theater system of nearly unequalled quality. For the first time, a built-in home theater speaker system gives up nothing to more intrusive and expensive freestanding speakers.

The InWall Gold/6 Monitor utilizes two 6.25" Scan-Speak Revelator drivers and a legendary Scan-Speak Revelator ring radiator tweeter, with frequency response beyond 50 kHz. The enclosure is heavy, acoustically inert, and designed for installation into 6" or more stud depth. The flush Acoustiperf grill can be color paint matched at Triad to blend the speakers seamlessly into your environment. The InWall Gold/6 Monitor provides all the advantages of an inwall speaker with none of the compromises.
